

2014 Volcano Review Photo Contest

Mount St. Helens annual publication, the *Volcano Review*, is looking for a new cover photograph for the 2014 issue. Over 100,000 copies of the *Volcano Review* are printed each year and distributed to Monument visitors from all over the world.

For the 2014 edition we would like to emphasize Spirit Lake. The best views of Spirit Lake with Mount St. Helens in the background are found along Forest Road 99 and in the Mount Margret Backcountry.

******Photos must include Mount St. Helens to be considered for placement on the cover.***

Submit your photo of the Mount St. Helens by November 2013 for a chance to be on the cover of the *Volcano Review*. Photographers should send the highest resolution version of their image to Lead Interpretive Park Ranger David Butler at dwbutler@fs.fed.us

for the greatest good
